

DUSTIN TAVELLA

LIVE SHOW RIDER

TECH NEEDS:

Dustin's tech needs are simple but VERY IMPORTANT. Please read carefully and reach out with any questions. Tech needs are as follows:

- There MUST be projection of some sort with the ability to play video from Dustin's laptop that will be on stage with him. This means an HDMI cable that runs to the projection system should be on stage.

- Dustin will bring his own camera set up for live cameras during his performance. All cameras, video, and audio run straight through Dustin's laptop. This is crucial for audience members to see important parts of the show.
- 1/8th inch Audio jack on stage for Dustin's laptop. Dustin runs his own music tracks from a remote hidden in his pocket. His laptop MUST BE ON STAGE.
 - Please understand this means his laptop must not be placed back by the soundboard or anywhere else. No stand is necessary for the laptop as it can just sit discreetly on the floor of the stage, off to the side.

- Power strip on stage by the laptop.

DUSTIN TAVELLA

LIVE SHOW RIDER

- A wireless handheld mic for volunteers.

- A low profile headset mic that goes over BOTH ears.

PROP NEEDS:

THESE 3 ITEMS SHOULD BE PURCHASED ON AMAZON.

Please make sure you get these items in advance to ensure that they will be there in time for the performance. The main table may take up to a week to arrive.

Do NOT find substitutes or items "similar" to the ones listed here. Props are to be these EXACT items. If you have any questions or any trouble, please let us know ASAP.

Below is a link to the amazon list. We have also listed the items individually for your convenience.
